

Raynetta Greenleaf
CEO/ Founder for Greenleaf Motivation, Inc.
501 (c) (3) Organization

Greenleaf Motivation, Inc. was formed in March 2013 as a nonprofit corporation in the State of Illinois. The agency worked at a grassroots level until 2018 when it obtained a fiscal sponsor. In December 2018, Greenleaf Motivation officially became a tax-exempt, 501c3 nonprofit organization. Our mission is "to protect the integrity of our community by providing a safe and nurturing environment for at-risk youth to develop their full potential". Greenleaf Motivation started out as Touch of Love Charitable Outreach in 2013 with a vision by its Founder/Executive Director, Raynetta Greenleaf, to change the culture and climate of Chicago's reputation through its youth. The purpose of the organization is to improve the quality of life for our community and promote emotional, financial, psychological, educational and wellness support for underserved children, individuals and families.

The agency's first program started out by helping provide housing for Foster Children giving them all the necessary needs of the household to help stimulate their growth. From providing budget and financial literacy for parents to after-school academic enrichment programs for school-aged children, Greenleaf Motivation, Inc. has grown to encompass serving underserved

and under-resourced individuals of all ages and families within the Auburn-Gresham, Englewood and West Englewood communities through workforce development initiatives, community events and workshops, academic enrichment programs for youth, and hosting athletic competitions to reinforce stronger healthier communities. Now entering its 6th year of continuous growth, Greenleaf Motivation has held one of many successfully large tournament based events including: live entertainment, youth workshops, vendors, and something for the entire community to enjoy. Greenleaf Motivation recognizes the effectiveness of including enrichment activities to spark curiosity and develop a love for learning. We also recognize the need to foster self-worth and develop each youth's self-esteem while using a sports-based program to promote social, emotional, and behavioral skills. Additionally, conflict resolution, anger management and value centered critical thinking evolves out of peace circle discussions. We provide a myriad on cohort educational and job readiness workshops. Our flagship program is based on hosting community awareness programs, providing supportive services and workforce development training. GMI considers the "whole" person when addressing the myriad of social problems by empowering its clients to be self-sufficient. Our organization was founded to assist low-income children and adults with gaining an education, job training, and access to quality food in their communities. Greenleaf has provided programs and services for nearly 1,000 youth and families through our community driven events. We believe through our involvement with the community, we grow as people and connect with those around us. In the upcoming year we are working on opening our first Greenleaf Motivation, Inc. Transitional Housing, for our youth and young adults transferring from the "Department of Children Service" (DCFS). Greenleaf Motivation, Inc. believe if we can make a difference in the lives of our youth we can promote positive impact and change in our community for our youth

Greenleaf Motivation Inc.,
